

DANCE TEAM UNION

TEAM MIXTAPE

This team bonding activity brings the team together to create their unique 2021-2022 season playlist. This playlist will be made up of songs that represent each team member.

INSTRUCTIONS

Team members will be asked the day before to come the next day with a song in mind. This song will be a favorite of theirs, a song that means a lot to them, or a song that represents them. Each team member will share the song with their team and explain why they chose that particular song.

At the end of camp/practice, the instructor or coach will create a team playlist using all of the songs. This playlist can be used throughout the season as a representation of the 2021-2022 team!

The instructor or coach will go first to demonstrate. Share the title of your song and the name of the artist or band. Then explain why you chose that song. Ask for volunteers to take their turn, and if you need to, you can select the next person to go.

You can create your team playlist on whatever music platform you prefer and use the playlist all year round!

TIPS

- Use the template below during this activity to document each participant's song choice.
- If you have a smaller team, have each participant select two or three songs!
